Jacquelyn Kyle is a Glowforge expert and educator teaching new creators to design laser files and build successful Glowforge businesses.

She is the creator of File Makers Academy, her five week course that has helped hundreds of new creators learn the complex art of Glowforge file design by breaking it down into manageable, project-based lessons that build skills and confidence (and a full portfolio of files!).

You can find her online at [thefabletree.com](http://thefabletree.com) and on Instagram [@thefabletree](https://www.instagram.com/thefabletree).

Jacquelyn is available to comment on stories related to:

- the Glowforge laser cutter and engraver
- DIY and craft projects that don't look homemade
- creative side hustles for women
- running a successful Etsy shop for digital products
- creating passive income streams in small businesses
- finding your niche to focus on what matters in your business
